Pánové mám mrtvé budíky, funguje jen podsvícení, jinak jde o model s LCD displejem (bez ručiček) Kabeláž rozmotaná ale závada nezjištěna. Takže to vypadá na nové budíky nebo celou kabeláž. Nevíte někdo o něčem?

Ahoj. Měl jsem ten samý problém Goes 625 Do budíku vedou dva svazky drátu kryté prachovkou a pod nimi byly povytazeny konektory tak jsem je zpět zasunul a svazky ještě zajistil stahovací páskou aby nemely tendenci se zas vytahovat. Problém vyřešen. Zdravím T. (y)

Ahoj , oživím toto téma . Mám krátce Gladiátora 530RX-A z roku 2008. Tachometr s ručičkami a digitálním počítadlem KM . Nefungují budíky , rychloměr stav paliva a teplota. Kontrolky a kilometry fungují . Setkal se někdo s podobným problémem ? Nějaká rada než začnu rozebírat a proměřovat? Dík

The role of security cannot be overstated. It's not just about protecting personal information but also ensuring that transactions and user activities are secure from any external threats. Platforms that prioritize security often use advanced encryption technologies, ensuring that your data remains private and your experience is smooth and worry-free. A platform's ability to safeguard sensitive data speaks volumes about its commitment to user trust and safety <https://101rtp.nz/>. Fair play is equally important in any service. It refers to the assurance that every user has the same opportunities and that there is no manipulation or bias. Transparency in operations is crucial to maintaining a level playing field, where outcomes are not influenced by any external factors. Platforms that prioritize fairness usually provide clear and accessible terms, allowing users to understand exactly how everything works. When both security and fairness are prioritized, users can feel confident that they are making informed choices and that their experience will be free from concerns. This creates an environment where users can focus on enjoying their activities without the fear of hidden risks or unfair practices. In the end, these two elements form the foundation of

a trustworthy and reliable online service, where people can truly feel at ease.
