Zdarec borci, třeba už někdo řešil, po zapojení vozíku nebo klidně i nosiče na kola (zkoušel jsem abych vyloučil špatnou elektroniku na vozíku) mi haprují blinkry na kolce. Zásuvka proměřena a zapojení je správně! Když zapojím vozík, koncové světla svítí, svítí i samozřejmě i mlhovka, jakmile chci spustit jakkoli blinkry, tak na vozíku nejdou vůbec, a na kolce taky ne, k tomu se přidá problikávání předních světel, x850 má ledky a funkci ztlumení světla při vyhození blinkru, nemůže to mít nějaký vliv? Ale říkám si že asi ne, když na osobáku který má taky tuto funkci to funguje správně. Čtyřkolka koupená nová, 3 dny zpátky po první garančce, tam jsem je o problému seznámil, všechno proměřili a měli jsme stejný výsledek.

Led žárovky do směrovek na vozíku. :-DD

Majoran 12.02.2021 10:29:01

No můžu to zkusit, ale proč to samé nedělá na osobáku? :o A ještě jedna perlička, kolka má denní svícení, tzn že když je volič světel v poloze OFF tak by zadek neměl svítit ani SPZ a ono to svítí všechno : :-D

Ahoj, mám úplně ten samý problém. Pomohlo teda vyměnit žárovky ve směrovkách na vozíku??

target525 06.03.2024 20:30:33

Ahoj, taky jsem měl ty samé problémy na x1000 a dal jsem na vozík led žárovky tedy všechny a je klid, ale měli by stačit jen blinkry.

Rogyze 16.03.2024 20:24:59

Na 4 kolke budes mat prerusovac prisposobený na led smerove svetla ktore maju oveľa mensi odber prudu ako klasické žiarovky preto ti to nefunguje. Tiez som musel dat na vlečku led do smeroviek aby to fungovalo...

Zdar. Já jsem na vozíku vyměnil žárovky v blinkrech z 21W na 5W a bylo po problému. Měl jsem zas ten problém, že po zapojení vozíku mi stále na něm svítila mlhovka. Udělal jsem si pak redukci, ve které jsem kabel pro mlhovku nepřipojil.
