So, how does the delivery work with prague-420.com? I'm staying at a fairly busy hotel - will they be discreet?

I ordered Smoke weed from <https://prague-420.com/> while staying in a busy area, and the delivery was very discreet. After placing my order, I received updates via message, and the delivery was arranged at a convenient spot nearby. The packaging was subtle, with no obvious markings, making it stress-free. If you're at a hotel, I'd suggest meeting the courier outside for extra privacy. Overall, the process was smooth, professional, and hassle-free. If anyone else has used their service at a hotel, how was your experience?

I had a bit of an issue; my hotel had a strict policy against packages. The delivery guy was cool about it, though, he waited with me until I could bring it to my room without issues.
