Hello, my name is Jure and I am from Slovenia. I have New Force 500 L which is very unknown ATV in Slovenia. I would like to know where to buy spare parts for New Force? Do you have any online shops where I could find spare parts and they will send it to Slovenia? Thank you for your answers.

have you tried ebay, aliexpress.com etc. ? you may also need to find alternative names for your model to be able to find spare part outside your country but I'm not sure if it's the case for new force as well - try google. I'm sure there are some shops in Czech with such spare parts but I doubt anyone would be willing to send them to Slovenia...
