Zdravím, mám problém s Maxem.. vzadu na rozvodovce nebo jak se to může jmenovat se vysypal jeden homokinetický kloub a nějak nemůžu sehnat náhradu. V servise mi poradili vyměnit celou rozvodovku, ale ta už se nedá nikde sehnat. Řešil někdo něco podobného? Za každou radu budu vděčný. Popřípadě kontakt na někoho šikovného kdo by to dal do kupy by se taky hodil. Děkuji Na obrázku č.1
